

Microsoft Services

Data is Your World. Discover The Potential.

The cost of enterprise class information technology can be overwhelming, regardless of the size of your business and your goals. In addition, the variety of choices available for data management systems complicates the investment and decision making process for executives. In today's technology-powered environment, a reliable and proven partner is the best IT investment you can make. Perpetual Technologies, Inc. (PTI), a **Microsoft Gold Certified Partner** and industry leader in Data Management and Solutions, is your key to achieving efficient and effective business-critical information management for the health and life of your business.

Perpetual Technologies' team of Microsoft Certified professionals provides consultant services and customized IT solutions to ensure that clients realize the full potential of their IT investments. Focused on achieving the highest levels of partner satisfaction, we offer a predictable and consistent support experience and comprehensive services to further your business success and enhance the loyalty of your customers, through the following areas of expertise:

- Business Intelligence Consulting
- Business to Business Application Integration
- Enterprise Application Integration
- Business Process Management
- SQL Server Integration Systems, Analysis and Reporting
- Database Migration
- Staff Augmentation
- One-on-One Training
- Supplemental Support
- Vacation Coverage
- Remote Database Administration
- Remote Monitoring
- Best Practices Consulting

"PTI is committed to giving our partners the services they need to develop, deploy and support solutions using Microsoft Technologies."
Ryan Stephens, President
