

# Oracle Services

## Data is Your World. *Discover Your Potential.*

Oracle has long been the database product of choice for mid- to large-sized companies requiring scalable, robust, reliable mission-critical data management. Whether you are considering Oracle or have already selected Oracle as the preferred software for your strategic business needs, a reliable and proven IT partner can help you select, implement, enhance, and protect your IT investment. Perpetual Technologies, Inc., a **Certified Oracle Partner** and industry leader in Data Management and Solutions, is your key to achieving efficient and effective business-critical information management for the health and life of your business.

Perpetual Technologies' team provides clients nationwide a full suite of Oracle database and development services which help businesses take full advantage of their industry-leading technology investment. Tailoring our services to your business needs, our team has expertise in the following areas:

- Oracle Database 8i, 9i, 10g, and 11g
- Oracle Collaboration Suite
- Oracle PL/SQL, Forms and Reports
- Oracle Real Application Clusters (RAC)
- Performance Tuning
- Business Intelligence Consulting
- Enterprise Application Integration
- Database Migrations and Upgrades
- Staff Augmentation
- One on One Training
- Vacation Coverage
- Remote Database Administration
- Remote Monitoring
- Best Practices Consulting

**‘Selecting the best Data Management Solution is the first step in staying competitive in today’s market; the next, is choosing a partner to protect that investment.’**

Ryan Stephens, President
